Meat and Egg Traders

Dear Sir/Madam

H5 HIGHLY PATHOGENIC AVIAN INFLUENZA (HPAI) IN EHIME PREFECTURE, JAPAN

Japan reported an outbreak of H5 highly pathogenic avian influenza (HPAI) in poultry in Ehime prefecture.

2 In view of the outbreak, the National Parks Board/Animal & Veterinary Service (NParks/AVS) has imposed a temporary restriction on the importation of poultry and poultry products from Ehime prefecture with effect from 31 December 2021. Heat-treated poultry products which comply with the OIE guidelines for inactivation of AI virus will not be subjected to the restriction.

3 To facilitate the clearance of permits for other poultry and poultry products, the following additional attestations are required to be included in the veterinary health certificate accompanying the import of poultry and poultry products:

- a) Highly pathogenic avian influenza (HPAI) is a notifiable disease in Japan.
- b) The birds from which the meat was sourced were not vaccinated against avian influenza (AI)
- c) The poultry meat and meat products were not derived from birds originating from Akita, Kagoshima, Hyogo, Kumamoto, Chiba, Saitama, Hiroshima, Aomori, and Ehime prefectures in Japan due to occurrence of avian influenza.
- d) The poultry from which the meat was derived were born, raised, and slaughtered in Japan, or were legally imported as day old chicks from countries with equivalent poultry health status.

4 Please contact Ms Lily, Ms Zawiyah or Mr Bosco at 6805 2857 / 6805 2863 / 6805 2856 should you have any enquiries on the import of poultry and poultry products.
