

14 May 2021

Dear F&B licensees and operators

Phase 2(Heightened alert) in the Fight Against COVID-19 – Cessation of Dine in for F&B

Following the measures introduced under “Heightened Alert”, we need to tighten more measures to swiftly stem the transmission of the virus. In order to substantially reduce the number of community cases, additional measures will take effect from **Sunday, 16 May 2021 through Sunday, 13 June 2021**

Dine-in F&B establishments are a higher-risk setting as customers often dine for prolonged periods in close proximity with each other with their masks-off. To reduce risks of community transmission, there will be a cessation of dine-in in F&B establishments, both indoor and outdoor, and they will only be able to offer takeaway and delivery options.

Yours faithfully

Singapore Food Agency
